

MAGICAL JOURNEY'S 2012 PERU OFFERINGS - SIX FABULOUS SPIRITUAL ADVENTURES

Is Peru on your "to-do" list for 2012? If so, we invite you to consider our six fabulous spiritual adventures scheduled this year. Magical Journey's Peru adventures are all based at the Willka T'ika Luxury Retreat Center, set in breathtaking gardens in the Sacred Valley. Willka T'ika's gardens abound with Andean medicinal plants, brilliant flowers and organically grown vegetables, all featured in our gourmet, entirely vegetarian meals. Optional early morning meditation beneath the ancient Lucuma tree, yoga in one of the sunlit studios, solar-heated floral medicinal baths, healing massages and a crystal bed healing room await those attending one of our fully inclusive retreat packages.

Together with authentic Andean healers, spiritual sojourners to Peru will gather during 2012 to honor Pachamama and all living forces of Nature and to focus on peace and freedom for all humankind. During our Magical Journey programs, we encourage participants to do their own personal healing work and invite guests to balance the material aspects of their lives together with the spiritual.

During each program, Carol invites participants on a special tour of the Seven Chakra Gardens at Willka T'ika, where she shares her knowledge of Andean wisdom and spirituality, and explains the energetic interaction of the plants with the human chakra system. In these highly energized gardens, the vibrations of Inkan healing plants, flowers and sacred Andean symbols touch the soul. Enjoy spending time in the gardens of your choice to enhance personal well-being and health. The guardians invite a deep connection to Pachamama and the opportunity to experience Her love, power and wisdom.

June 2-9, 2012 - AYAHUASCA AND AYNÍ IN THE ANDES:

Based at Willka T'ika, Dennis McKenna Ph.D., will team up with a highly qualified Peruvian ayahuascero for a full week that includes lectures and three ayahuasca ceremonies. Join this conference and three ceremonial offerings in the new Pachanawi Earth Temple.

Cost: \$2220/shared accommodation

Both gentlemen are experts in the field of Ayahuasca and are dedicated to the practice, academic studies, teaching and healing benefits offered by this amazing plant. They will be available to discuss the plant and the ceremonies from their personal perspectives.

There is so much more to an ayahuasca ceremony than just taking the brew offered by many inexperienced people in Peru and around the world. When Dennis became available to be present and lecture at this conference, I carefully chose a master ayahuascero to conduct the ceremonies after observing him working for the past two years with groups and individuals at Willka T'ika. Willka T'ika is a testament to my belief in the healing power and sacredness of all plants and I am honored to set aside this week in the most perfect surroundings of Willka T'ika for Ayahuasca, the Mother Sacred Plant of the Amazon. Ayni, the Andean practice of reciprocity, is practiced in this program. What you ask for must come from the heart. You must first give to the plant, to gain from it. ~ Carol Cumes

I have been privileged to have Dennis McKenna as a colleague and fellow teacher at the University of Minnesota's Center for Spirituality and Healing. His knowledge of the chemistry and botany of the sacred plants is encyclopedic - and his personal experience of them deep. Dennis offers a wonderful fusion of our Western scientific modes of understanding and the illuminating spiritual experiences opened by these medicines. ~ Erik F. Storlie, Ph.D., Faculty, Meditation Teacher, Center for Spirituality and Healing, University of Minnesota
